Services

Bank/Steep Slope Mowing

We offer mowing service using our remote-controlled and ride on slope mowers. One designed with wide rubber tracks and others with dual wheels, we can handle slopes up to 50° with no problem.

River Bank Vegetation Clearance

We offer hand held grass/vegetation clearance on riverbanks to improve waterflow and reduce flooding. All employees are trained sufficiently to work in close contact with water and environmental awareness to make sure all work undertaken is completed to the highest standard.

Hedge/ Highway Verge Mowing

We offer highway verge and hedge cutting to help improve roadside visibility and to avoid vegetation on roads and paths that could be hazardous to road users and pedestrians.

Green Park

Groundcare Ltd

Grass & wild flower seeding/collection

Our heavy duty cut and collect flail mower with high tip for emptying straight into a trailer/skip for removal offsite. Various areas we have covered include:

- Long / wet grass
- Bramble
- Light gorse and scrub
- Wild flower sites (with seed collector)

Pathway Construction

We create dust paths as they are a typical choice of surfacing and are ideal for rural and park areas to avoid damaging surrounding vegetation. All paths are created to a professional level so that they provide a smooth and level surface that is suitable for everyone.

Fencing

We offer installation of all types of fencing, gates and access for every situation. We operate multiple machines with post hole drivers and augers.
